

ANU Seminar

**EVOLUTION, ECOLOGY, & GENETICS
RESEARCH SCHOOL OF BIOLOGY**

Thursday 5th May 2011, 1pm

Integrating the Dimensions of Global Vertebrate Diversity for Biogeography and Evolutionary Ecology

A/Prof Walter Jetz

Department of Ecology and Evolutionary Biology,
Yale University

Walter Jetz research addresses questions in global biodiversity science, macroecology, global change ecology and conservation. In this talk he will present recent work on global gradients and biogeography of species and traits in birds and mammals.
